## Financial Results for FY March 2022

# Analysis of increase and decrease factors

- Main factors for increases and decreases in external sales and operating profit by segment are as follows.

(Key) (+) Increase factors, (-) Decrease factors

Segment		External revenue	Operating profit
Consulting		(+) Domestic DX consulting projects (+) Overseas consulting projects	
Financial IT Solutions	Securities	(+) Consolidation effect of AUSIEX in Australia (approx. 2.0billion yen)	(+) System integration projects for securities and other financial etc. (+) Contribution from increase in system management solutions (+) Reversion from unprofitable projects the previous year
	Insurance	(+) Systems development for non-life insurance (+) Mutual insurance and public sector projects	
	Banking	(-) Reversion from large projects the previous year	
	Other financial, etc.	(+) Consolidation effect of AUSIEX in Australia (approx. 3.0billion yen) (+) Mobile finance services-related projects	
Industrial IT Solutions	Distribution	(+) Systems development for retail and trading companies (+) Consolidation effect of Core BTS in the US ( approx. 0.5 billion yen)	(+) Return to profitability in Australia (+) Domestic DX projects
	Manufacturing & services, etc.	(+) Systems development for logistics (+) Consolidation effect of Planit in Australia (approx.12 billion yen) and Core BTS in the US (approx. 5.5 billion yen)	
IT Platform Services		(+) Information security business, Cloud business	

## Financial Results for FY March 2022

# Revenue by Service < Total >

(JPY million)

	FY Mar. 2021	FY Mar. 2022	Diff.	YoY Change
Consulting Services	90,056	125,460	35,403	39.3%
System Development & System Application Sales	183,847	196,000	12,152	6.6%
System Management & Operation Services	258,656	272,903	14,247	5.5%
Product Sales	17,777	17,269	(507)	(2.9%)
Total	550,337	611,634	61,296	11.1%

- **Consulting Services** : Increased in domestic DX projects and business in Australia
- **System Development & Application Sales** : DX projects gained momentum, mainly for domestic industrial clients
- **System Management & Operation Services** : Expanded in shared online services for finance and business in Australia

## Financial Results for FY March 2022

# Consolidated P/L Highlight < Total >

(JPY million)

	FY Mar. 2021	FY Mar. 2022	Diff.	YoY Change
Revenue	550,337	611,634	61,296	11.1%
Cost of Sales	364,539	395,562	31,023	8.5%
Subcontracting Costs	171,560	194,766	23,206	13.5%
Gross Profit	185,798	216,071	30,273	16.3%
Gross Profit Margin	33.8%	35.3%	1.6P	
SG&A	98,366	113,536	15,170	15.4%
Other Income & Other Expenses, etc.	(6,683)	3,683	10,367	—
Operating Profit	80,748	106,218	25,470	31.5%
Operating Margin	14.7%	17.4%	2.7P	

## Financial Results for FY March 2022

# Consolidated P/L Highlight < Total > (continued)

(JPY million)

	FY Mar. 2021	FY Mar. 2022	Diff.	YoY Change
Operating Profit	80,748	106,218	25,470	31.5%
Finance Income & Finance Costs	(9,672)	(1,547)	8,125	(84.0%)
Profit before tax	71,075	104,671	33,595	47.3%
Income tax expenses	18,497	32,878	14,381	77.8%
Profit attributable to owners of parent	52,867	71,445	18,577	35.1%

# Key Factors in Financial Results

## ■ Higher income with +11.1% in revenue

- Larger and wider scope of DX projects in Consulting and Industrial IT Solutions contributed to revenue
- Overseas business expanded, with additional acquisitions in Australia and securing a foothold in North America (Core BTS)

## ■ +31.5% in operating profit

- Improved productivity and profitability with larger clients and higher added value
- Overseas business contributed to profit, particularly in Australia

NRI will achieve target operating profit in Medium-Term Plan (2019-2022) earlier than planned

We are establishing and expanding business infrastructure in Australia and North America while steadily developing our next areas of growth such as topics that solve social issues

## Sustainability management initiatives

# NRI Group Sustainability Management Policy

NRI Group Growth

Building sustainable futures

Corporate Philosophy “Dream up the future”

## NRI Group Sustainability Management(Medium-Term Management Plan 2019-2022)

### 【Vision2022 Numerical Targets】

Consolidated Operating Profit (JPY billion)	100
Consolidated Operating Profit Margin (%)	14 or more
Overseas Sales (JPY billions)	100
ROE (%)	14*

\* Aiming for higher capital efficiency as continuing from the previous term

### Solving social issues through value co-creation (CSV)

Co-create a thriving future society  
by driving new value.

Co-create an ideal society  
by effectively utilizing its resources.

Co-create a safe and secure society  
by advancing its infrastructure.

### Materiality for sustainable growth

Reducing our environmental impact

Provision of opportunities for all kinds of professionals to take on challenge

Compliance with laws, regulations and risk management to increase trust from society

Management of the information systems that form social infrastructure

# Sustainability management initiatives

## Looking back on value co-creation in FY March 2022

Social value	Medium to long-term measures	Status

## Group Vision 2030 (Outline)

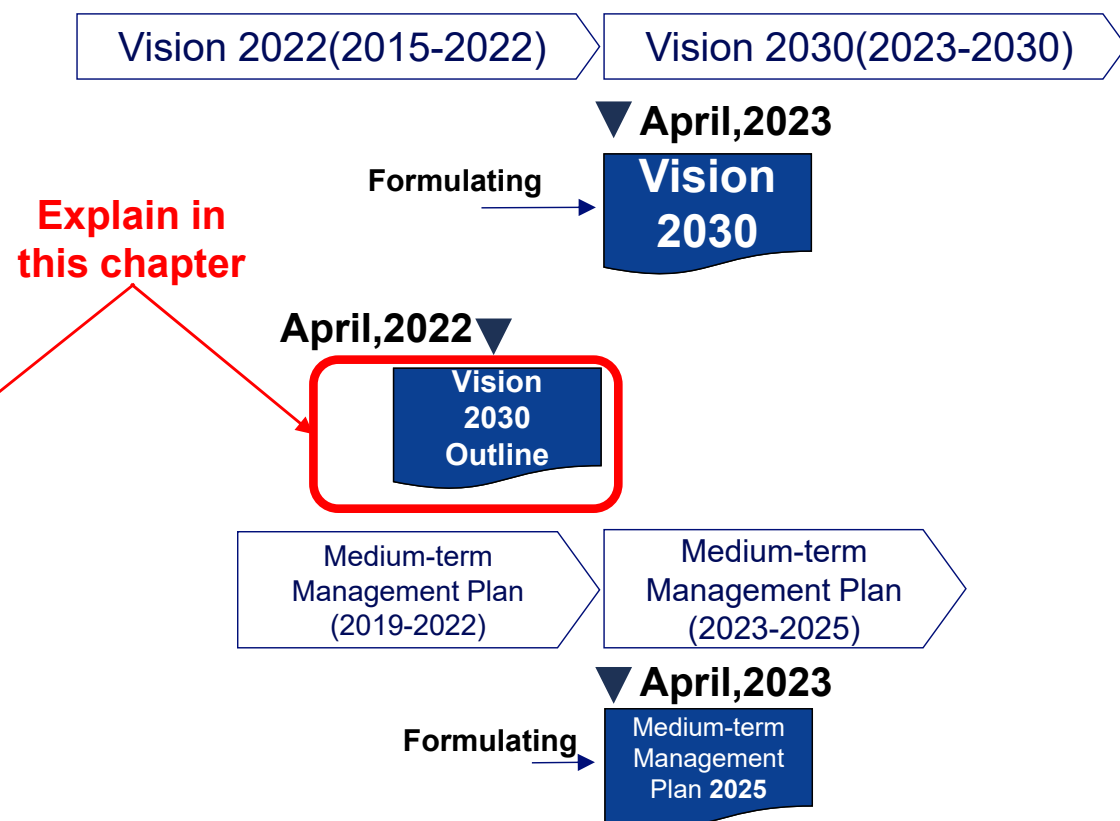

# Group Vision 2030

- In this portion, we will explain the essentials of our new long-term management vision Group Vision 2030 (“Vision 2030”)
- We will be finalizing Vision 2030 and formulating the next Medium-Term Management Plan with plans to announce them in April 2023

### Arrangement of corporate philosophy & vision

### Schedule overview

# Group Vision 2030 (Outline)

## In 2030, DX is more complicated as technology drives the world

### Volatile Changes in Business Environment

#### Complex social issues

- Importance of solving social issues such as carbon neutrality (CN)
- Expectations of society and investors from companies
- Complex international political trends

#### Increasingly fluid industrial structure

- Digitalization eradicates the boundaries between industries and business types
- Limited growth of existing revenue models
- Digitalization as a source of competitiveness

#### Progress of latest technologies and commoditization

- Evolution of cloud, AI and next-generation communication technologies, etc.
- Commoditization of no-code, low-code, etc.

#### Diversification of values and work styles

- Advancing economic inequalities, polarization and division
- Respect for individuality and establishment of new work styles

### "Impact" on corporate activities

#### Redefining industries and business models

- New business areas that transcend industry and business categories
- Existing assets are a hindrance (legacy assets)
- Shift to digital-first (value accumulation\*)

\* Value of new products is lowest but appreciates with the passage of time as updates are implemented

#### Advancement of various convergences (Integration/fusion)

- Advancing convergence between management and technology
- Technology use differentiates quality

#### Areas of cooperation areas must be expanded to solve social issues

- Partnerships are essential for solving social issues
- Shifting to cooperative frameworks, including for carbon neutrality

#### Diversity is a source of energy

- Business opportunities associated with inclusion and diversity
- Companies should leverage diverse human resources and talent

# Society in 2030 created by NRI and NRI's vision

### Society in 2030

**A prosperous and thriving society**

**Excellent intangible assets (human capital and intellectual assets) and enhanced digital social capital\*** is required to build a prosperous and thriving society

\*Shared infrastructure and services that leverage digital technologies to generate new value and support society and industry

**A sustainable and ideal society**

Various events in real space are **visualized as data** and optimized through **simulations in digital space** (Digital Twin) to realize a society that effectively utilizes resources and considerate of the global environment

**A safe and secure society**

**Protection** of social infrastructure and personal information **through advanced security services** so that people can live comfortably using various digital services with peace of mind

### NRI in 2030

**Always being at the forefront of the future of technology, we at NRI have insight into the prosperity that lies beyond DX and will dynamically transform the world with digital social capital**

# Group Vision 2030 (Outline)

## Digital social capital is indispensable for a prosperous and dynamic society

From "NRI Dream Up The Future Forum 2019", October 2019

Degree of life satisfaction and GDP per capita in each country

Source: GDP per capita: World Bank  
Degree of Life Satisfaction: UN World Happiness Index (2018)

Degree of life satisfaction and DESI in EU countries

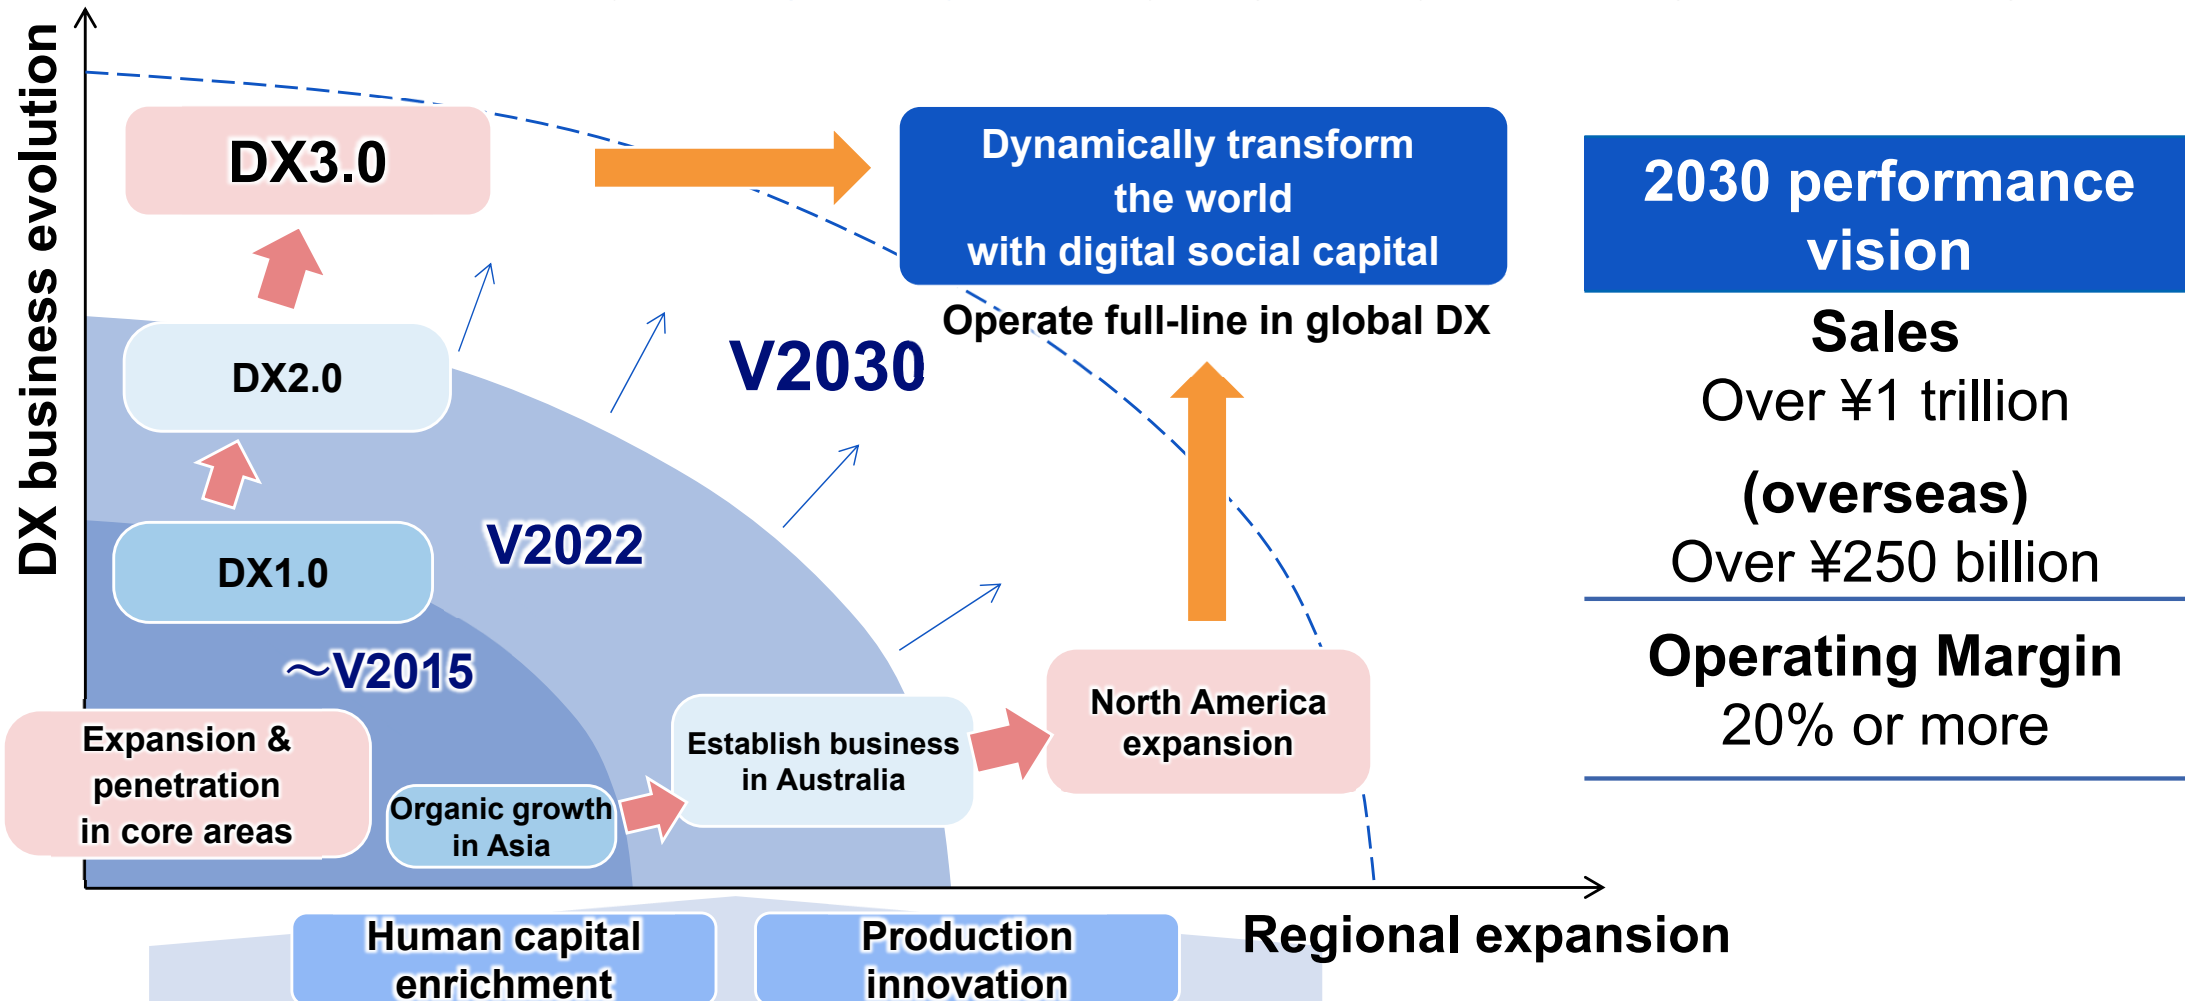

Source: Degree of Life Satisfaction: European Commission Eurobarometer (2018)  
Digital Economy and Society Index: European Commission DESI (2018)

## Group Vision 2030 (Outline)

# Growth Story from Now until 2030

- **Core areas**: Lead **clients' value creation** through expansion and penetration
- **DX**: Evolve to **DX 3.0** with social impact transcending companies and industries
- **Global**: Deliver NRI-style DX **globally** while synergistically enhancing IP in each region

# Operating Profit Growth Outlook

- **Increased revenue effects**: Profit growth through larger clients and other means to increase sales
- **Raising productivity**: Expand platform business and leverage digital IP, AI, and other properties to aid advancement in areas such as production innovation
- **Expanding overseas**: Increase profit margins in Australia and establish business infrastructure in North America
- **New business**: Monetize new types of services such as DX 3.0

# Group Vision 2030 (Outline)

## Core domains:

## Continuing growth by advancing and improving DX 1.0/2.0

### Consulting: Expanding DX execution-based consulting

- **DX execution-based consulting**, such as analytics and DX consulting to realize client transformation
- **Prior investment in planned businesses** such as client collaboration and new DX services, through social issues-based approach

### Finance: BPF\* evolution and legacy migration

- Evolve BPF from business-specific to **function-specific**, creating **PF for new markets** such as alternative investments and digital assets
- **Expand migration of clients' legacy IT assets**, including cloud shifts and IT outsourcing

\* BPF : Business Platform

### Industry: Develop and acquire large first-mover DX clients

- Leverage **Con-Solution** and **digital development capabilities** to do business with DX growth companies in major industries
- Strengthen competitiveness by adding **digital IP** that contributes to development efficiency, and the optimization and automation of client businesses

### Platform: Expansion of the cybersecurity business

- Offer multi-lateral **cyber defense services** for digital crime, including regulatory compliance
- Accelerate co-creation with vendors, startups, etc. in addition to strengthening R&D in order to **acquire the latest technology IP**

# Group Vision 2030 (Outline)

## DX: Realizing the ideal future society with “Digital Social Capital”

### A 2030 society that NRI innovates

**A prosperous and  
thriving society**

**A sustainable and  
ideal society**

**A safe and  
secure society**

### Digital Social Capital created with DX 3.0

#### Social DX

- **Digitalization of government services**  
Improving convenience for citizens with the Individual Number Card platform
- **Regional revitalization and smartification**  
Promoting local DX to improve quality of life and increase competitiveness  
Realizing an ideal society through the smartification of streets and buildings
- **New expansion of financial services**  
Expanding new use of financial assets such as digital assets

#### Value Chain DX

- **Value chain optimization/tracing**  
Coexistence of eco-friendliness and economic efficiency, visualization of CO<sub>2</sub>
- **Creation of circular economy PF**  
Eco-friendliness through effective use of resources

#### Infrastructure DX

- **Transformation of infrastructure lifecycle**  
Achieving sustainable and resilient social infrastructure
- **Creation of financial infrastructure for carbon neutrality**  
Creating and enhancing markets through policies such as decarbonization

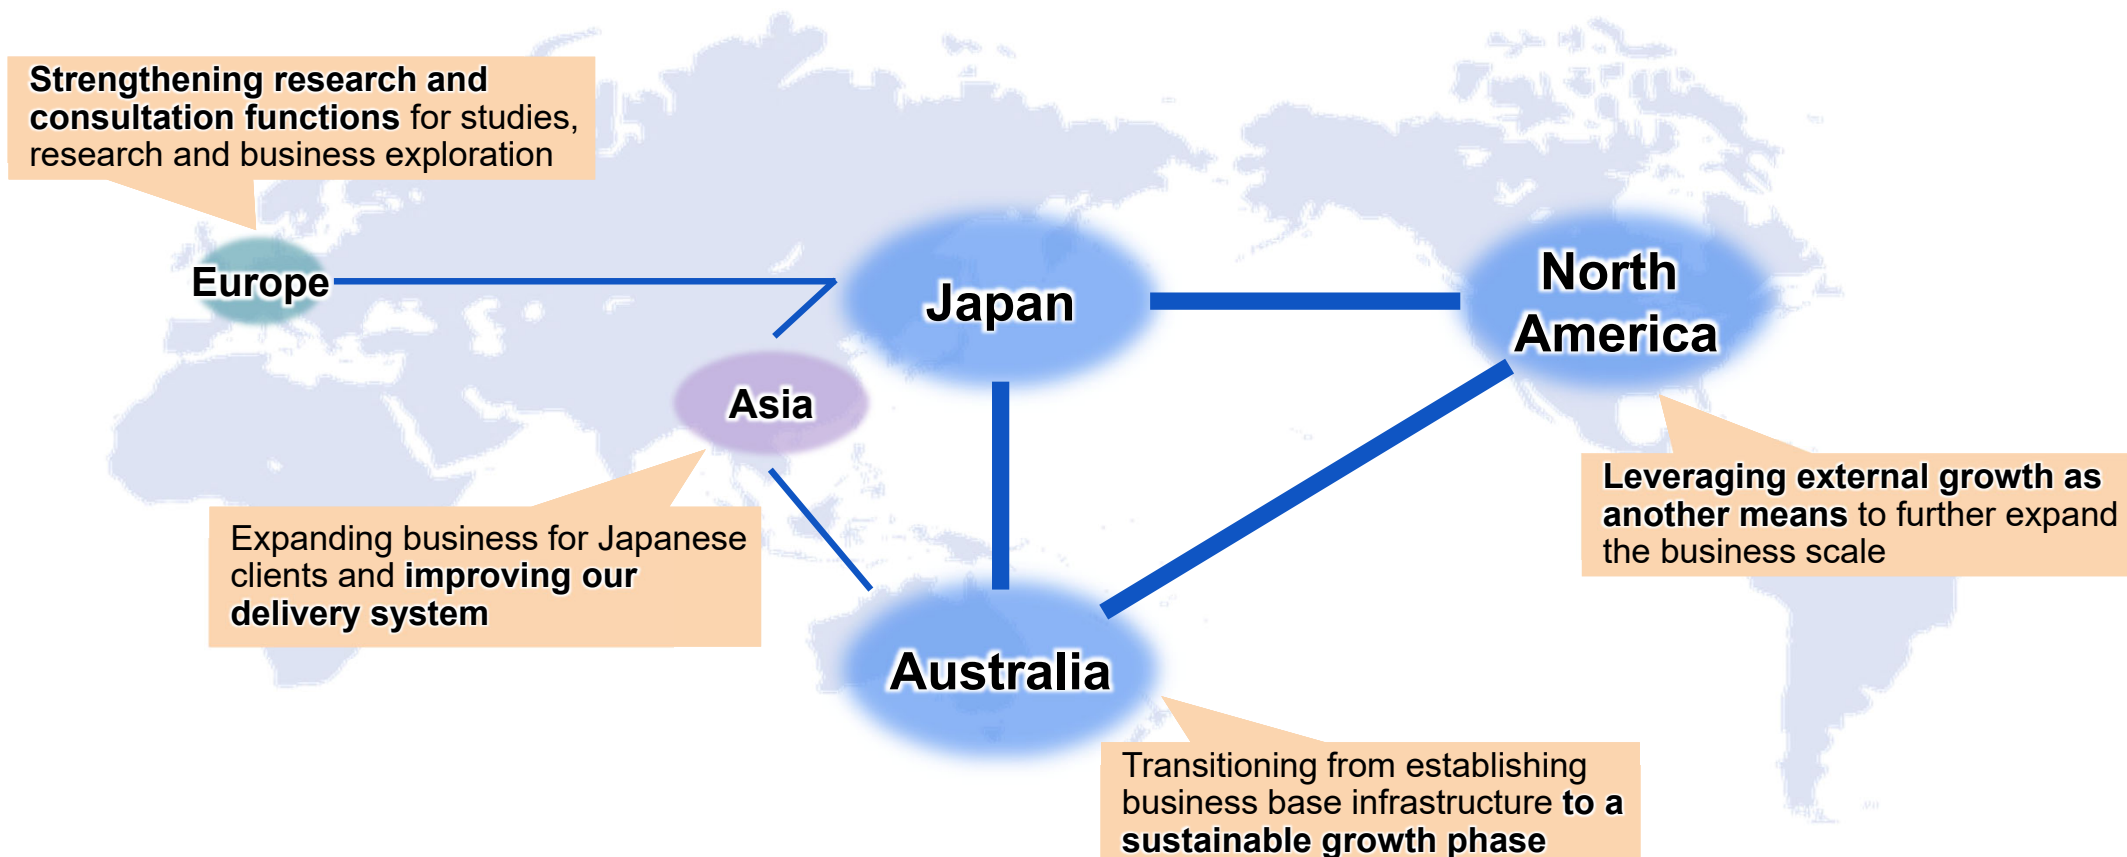

# Group Vision 2030 (Outline)

## Global: Business expansion focusing on three main regions

- Establish sustainable business infrastructure through local management and accelerate collaboration-building and synergy creation between regions, focused on the three centers of Japan/Asia, Australia, and North America
- Operate full-line global DX business long-term

### Evolving and synergistically enhancing DX in each region

## Developing businesses to facilitate the management of corporate CO<sub>2</sub> emissions

- Enabling management of all CO<sub>2</sub> emissions from business operations to accelerate de-carbonization of society

### Analysis engine for financial institutions

#### Net zero CO<sub>2</sub> emissions support service for lending and investment portfolios

##### Providing CO<sub>2</sub> emission reduction pathways to financial institutions

- Financial institutions must commit to reducing CO<sub>2</sub> emissions in their lending and investment portfolios as per the **UN and several other initiatives**
- TCFD encourages financial institutions to measure their emissions per the PCAF calculation standards

#### Financed emissions analysis solution

CO<sub>2</sub> emissions from lending and investment portfolios of each financial institution are calculated taking into account the latest developments in each guidance/domestic circumstances. Analysis by sector/company, etc. is also possible.

#### Engagement support consulting

Based on calculation results, support financial institutions' with an approach for sectors/companies to reduce CO<sub>2</sub> emissions across the portfolio.

Using NRI's comprehensive capabilities to help clients/industries in early achievement of **carbon neutrality**

### Analysis engine for industrial clients

#### Carbon Management System

**Building the best analysis logic for each industry / PoC**

Leverage the in-depth industry knowledge accumulated through NRI's consulting business. Work with clients to build a CO<sub>2</sub> accounting process for an industry for which no standards exist.

### Data connectivity platform

#### NRI-CTS (patent pending)

**Connecting information from upstream to downstream in the supply chain**

The concept of facilitating Scope 3 calculations by linking Scope 1 information of different companies is unique, and so far, only NRI has come up with a prototype. Plans for multilingual support are also in place.

# 'Zero Trust' provides safety and security in an advanced IT society

Co-create a thriving future society

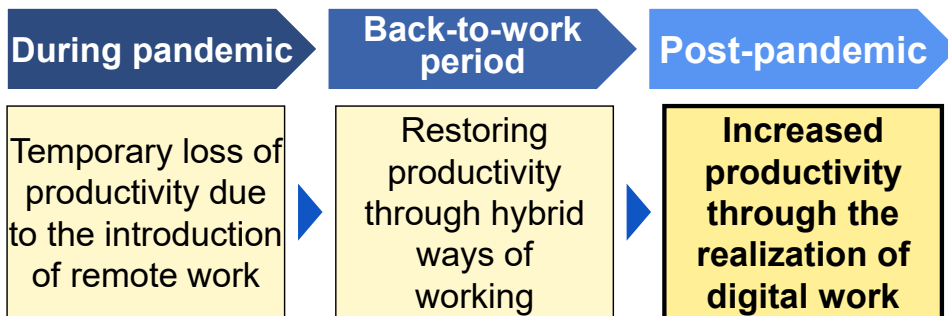

Co-create an ideal society

 Co-create a safe and secure society

- Realizing a networked society where people can use IT safely and securely with NRI Group's **con-solution**

\*Con-solution: Consulting and IT solutions work together to continuously co-create value

### Transition to digital work

### One-stop service from planning to operation of zero-trust workplaces

#### Consulting

Conceptualize Zero Trust's overall architecture to meet the needs of the client's business and industry

**NSF**  
(NRI Secure Framework)

Framework for visualizing the status of security measures

#### Security integration

Realize systems by combining the optimal solutions to meet the needs of clients and society

Providing a digital workplace that combines security and increased productivity

#### Managed services

After release, we continue to operate and monitor complex systems 24/365 to ensure the safety, security, and stability of our clients and society

Advanced security operation and monitoring services

Create an environment where people can work digitally with peace of mind

→ Dramatic improvement in productivity of society as a whole

### Key technology is "Zero Trust"

\*Zero Trust: A policy that disregards the concept of 'boundaries' between internal and external networks. Instead, it constantly monitors and verifies all access to information assets that must be protected without trusting anyone.

This document contains statements that constitute forward-looking statements. These statements include descriptions regarding the intent, belief or current expectations of the Company or its officers with respect to the consolidated results of operations and financial condition of the Company.

Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and actual results may differ from those in the forward-looking statements as a result of various factors.

The Company does not undertake to revise forward-looking statements to reflect future events or circumstances.

Figures given in the reference data related to the financial results forecasts are figures which are only intended to convey the Company's current circumstances and outlook. The Company does not undertake to revise the forecasts to reflect new information or circumstances.

The text is framed by two decorative swooshes. The top swoosh is a thick, curved line that starts in blue on the left, transitions through purple and pink in the middle, and ends in orange on the right. The bottom swoosh is a thick, curved blue line that starts on the left and tapers off to the right.
