

### **Financial Results Presentation**

Financial Results for 3<sup>rd</sup> Quarter FY March 2014 and Financial Results Forecast for the year ending 31<sup>st</sup> March, 2014

**January 30, 2014** 

Nomura Research Institute, Ltd.

### **Contents**

- 1. Financial Results for 3rd Quarter FY March 2014
- 2. Financial Results Forecasts for FY March 2014
- 3. Recent Activities

## Highlights of Consolidated Financial Results <3Q Total>

	3Q FY Mar. 2013 Total (AprDec.)	3Q FY Mar. 2014 Total (AprDec.)	Diff.	YoY Change
Sales	260,360	279,460	+19,100	+7.3%
Operating Profit	31,260	36,036	+4,776	+15.3%
<b>Operating Profit Margin</b>	12.0%	12.9%	+0.9P	
Net Income	20,482	24,111	+3,629	+17.7%

<sup>\*</sup> A new accounting standard for employee stock-based incentive programs was published, so figures for last fiscal year are stated after the application of the new accounting standard.

## Key Factors in Financial Results for 3Q FY March 2014

### 3Q sales up 7.3%

- Sales rose across all key segments.
- Consulting up 10.6% with sales buoyant in both public and private sectors.
- Financial IT Solutions increased sales 5.4% on increase in overall demand for IT solutions, including system changes.
- Industrial IT Solutions grew sales 4.4%, primarily in manufacturing and service industries.
- IT Platform Services saw 26.0% sales growth due to a rise in renewal projects in PCs, servers, networks and other areas.

### Operating profit up 15.3%

- For Consulting, operating profit rose 70.1% due to an improved utilization rate driven by sales growth.
- For Financial IT Solutions, profit rose 34.7% due to an improved utilization rate, growth in income linked to the securities market and the elimination of additional costs for insurance in the same period of the previous year.
- For Industrial IT Solutions, profit rose 37.1% on an increase in project profitability.
- Profit fell 39.5% for IT Platform Services, with an increase in depreciation and upfront costs for new data centers and addition costs for some projects in 2Q and 3Q.

## NRI Ranked 9<sup>th</sup> in FinTech 100 for Fourth Consecutive Year

- In 2013, NRI was ranked 9<sup>th</sup> on the FinTech 100, an international listing of the top 100 IT service providers to the financial services industry. NRI was the only Japanese company ranked in the top 10, and it has achieved a top 10 ranking for four consecutive years since 2010.
- The FinTech 100 is researched and published by US specialist financial industry publications American Banker and Bank Technology News and IDC Financial Insights, a financial services company. The research covers IT service providers to financial services companies that derive more than one third of their global sales from the financial services industry, and the ranking is published each fall. The ranking is based on surveys of the service provider companies themselves as well as original research and market analysis conducted by IDC Financial Insights and determined using previous fiscal year sales and the percentage of sales attributed to financial solutions.

2013 rank	Company

#### NRI Delivers Shared-use IT Solutions to Mongolian Securities Firm

- NRI FT India has entered a partnership with the Mongolian company Global Investment Initiative, Ltd. and the Indian company Omnesys Technologies Pvt. Ltd. to deliver shared-use IT solutions integrating processes from order receipt to settlement of market transactions for local Mongolian securities firms.
- Delivery of an integrated system solution from front to back office to the first client ResCap Securities, a major Mongolian securities firm, commenced in October 2013.
- This has enabled ResCap Securities to provide the highest level of service in Mongolia, including real-time transaction status view from orders to settlement.

# NRI Begins Delivery of Solution for Foreign Domiciled Investment Fund Operation, FundWeb GAITO

- NRI commenced delivery of its FundWeb GAITO (GAITO) solution, which automates data connectivity when foreign domiciled investment funds sell in Japan, to Nomura Bank Luxembourg S.A.
- GAITO is the first solution in Japan that automates operating data connectivity for foreign domiciled investment funds between investment managers and distributors in Japan with transfer agents outside of Japan. As a result, operations can be conducted in Japan time using screen displays in Japanese, significantly reducing workload and alleviating risk.
- In addition, the GAITO client helpdesk offers support in line with business hours in Japan and does not require people to worry about time differences. Inquiries are handled in Japanese.

#### NRI Commences Provision of Practice Guide on Introduction of Number Program

- NRI published the results of a survey on the issues that companies will need to address when the taxpayer and social security number program is introduced in Japan.
- The survey examined how companies should respond and compiled a guide to practice including anticipated forms and operational flows with the introduction of the number program in January 2016.
- In the first stage, NRI sampled companies with around 1,200 employees to survey salary and welfare issues requiring action on the introduction of the number program and published the reviewed results.

## "Smile to Smile" Cloud Services Now Available to Silver Human Resource Center Members

- NRI Social Information System Services, Ltd. (NRI Social) launched delivery of its Smile to Smile member cloud services for silver human resource centers.
- The service allows senior citizens who are members to view information such as notifications from silver human resource centers and employment information using a PC or a mobile device such as a smartphone.
- Previously, members had to contact center personnel by phone or visit a center to obtain information. However, using this service makes it possible to access the required information anytime and anywhere via the internet with a PC or mobile device.
- The service is also expected to facilitate exchange of information between center personnel and members and to streamline operations at the centers.

## Launch of iPad Conferencing System Mobile Kaigi II

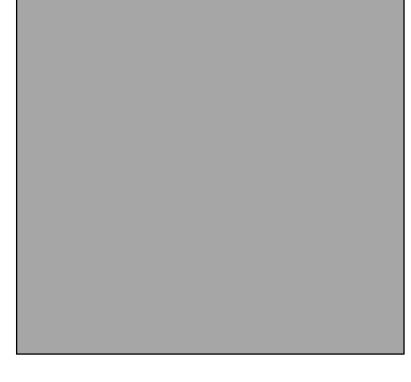

- NRI Netcom, Ltd. (NRI Netcom) had updated its iPad conferencing system and commenced delivery of Mobile Kaigi II.
- With the Mobile Kaigi system, participants whose attendance has been approved log in to a virtual conference room via iPad, the meeting materials displayed on each person's device are synchronized in line with the proceedings by the chairperson, and all participants can view the same screen during the meeting.
- Mobile Kaigi II retains the existing functions and performance and adds new functions such as an Add/Edit Handwritten Note function and a User-Friendly Page Navigation function to accommodate diverse types of meetings.
- Mobile Kaigi has a particularly high-volume sales performance for executive committees and boards of directors.

Dempa Shimbun, November 8, 2013

## Provision of Cyber Attack Protection Software Commences in US

- NRI Secure Technologies, Inc. (NRI Secure) commenced sales of cyber attack protection software FFR yarai developed by FFR to corporations with offices in the US.
- FFR yarai defends against targeted attacks through installation in a device such as a PC or tablet (endpoint).
- NRI Secure has hitherto supported gateway security protection in the US. By providing FFR yarai endpoint security protection in addition to this, it has enabled defense-in-depth against targeted cyber attacks for corporate information systems at US offices as well.
- NRI Secure plans to sell FFR yarai to approximately 50 companies in the US by the end of 2014
