2. Basis for payment of dividends

NRI considers the continued growth of its corporate value to be the most important return to its shareholders. Its basic policy is to maintain a stable dividend while retaining sufficient internal reserves for medium and long-term business expansion. NRI makes specific decisions regarding the payment of dividends from retained earnings based on operating revenues and cash flows, while aiming, in principle, for a *consolidated dividend payout ratio of 35%.

Based on the above policy and overall performance of the fiscal year ended March 31, 2022, the year end dividend for the fiscal year ending March 31, 2022 will be 21 yen per share which is an increase of 2 yen per share from the interim dividend at NRI paid on November 2021. The full-year dividend for the fiscal year ended March 31, 2022 is 40 yen per share, yielding a consolidated dividend payout ratio of 33.1%.

* Consolidated dividend payout ratio = Annual amount of payment of dividend (including dividend for the trust exclusive for the NRI Group Employee Stock Ownership Association) / Profit attributable to owners of parent
